

Our technological advantage makes it possible!

Unlimited variety of shapes for your utterly individual collection.

Through our fully automated milling of your materials – laminates, PVC, linoleum, etc. – nearly all shapes are possible in perfect-edged quality with minimum materials. Thus, the shape of your samples can provide unmistakable identification of your collection.

The "K-Klapp"-Construction provides space and easy overview!

Through the "K-Klapp" technology which we have developed, the number of decors can be expanded in optimum fashion. Decor sizes are variable and the reverse side of the individual tabs can be used for additional information. Thus, your customer has immediate access to all important decor information.

The "K-Klapp"- construction provides an indispensable orientation and information advantage with large quantities of decors. Yet the aesthetic aspect remains unsurpassed!

 PACKAGING & SERVICES
 www.dinkhauser.com

Well presented is almost sold!

...a tried and tested marketing principle.

The brand ShowPac® stands for perfect presentation media for successful sales. Collections are considered the most important instrument of field sales service personnel, since the presentation of original samples is irreplaceable. Your customer wants to "feel" the product and "grasp" it in order to imagine it in reality.

Collections are the expression of your competence.

The combination of aesthetics and function is especially important. Never underestimate the competitive advantage of user-friendliness through meaningful orientation helps with optimum informational content. Answering these needs is a challenge our ShowPac® specialists rise to each and every day.

Project responsibility can be handed over to us with confidence.

Dinkhauser takes on the overall responsibility, beginning with concept and design, milling the samples, printing and production all the way to the finished product. Well-calculated process management guarantees highest precision and the shortest possible supply dates.

Collections are custom-made.

Every collection is individually designed for the customer and his special necessities, with the objective of developing an optimal, budget-fitting sales tool. To keep your time schedule as low as possible, we provide from the very beginning clear and transparent project processing. We respond flexibly and quickly to your wishes and implement them they way you wish.

Everything from one source!

...an advantage in competence that will give wings to your project!

A whole team of experienced experts is at your disposal to design your collection, giving it form and graphic art in optimum fashion. This overall achievement of ShowPac® is an advantage in competence which assists both your collection quality and your company's project management. The upshot is collections with the highest possible attention-getting factor and intelligent orientation aids.

You make the demands, we fill them with creative life.

Among our top references are the two collections pictured here, with over 600 decors and corresponding product information – exemplary for a very complex presentation of an especially large collection.

Everything from one source – that's what brings the highest possible advantage for customers, because when all one's strengths are perfectly coordinated and bundled they offer an enormous advantage in competence.
